

Tremble

Vers 1

Another sleepless night
it's getting hard to fight
Familiar notions start to grow
You say it's time to go

Brygga

Just take my hand and we'll figure it out
We might find porpoise in this world

Ref

But for now let's wait right here
In this tender atmosphere
We could tremble in the night
Until the dawn comes warm and bright

Vers 2

Don't need to talk
Let silence roam instead
Cause so much can be told in the unsaid

Brygga

Just take my hand and we'll figure it out
Someday we'll find porpoise in this world

Ref

But for now let's wait right here
In this tender atmosphere
We could tremble in the night
Until the dawn comes warm and bright

Outro

So just take my hand and we'll figure it out
With you I find porpoise in this world
